

AKASHA ACADEMY
PRESERVING ANCIENT WISDOM

BECOME A HEALTH CARE ADVISOR - COVID-19

Vocational Training at Akasha Academy Nepal

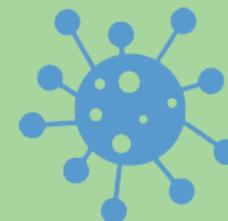

Overview of the program

The Corona Pandemic has changed our lives. To support others in your community, Akasha Academy offers a special "Training of Trainers" program as Health Care Advisor focusing Covid-19.

Learn important facts about the nature of the Corona disease and teach others how to maintain a safe and healthy lifestyle during the time after the Lockdown.

The course will start in September 2020 in our newly constructed training center in Suntakhan:

-  40 hours Training of Trainers (ToT) program in basic medicine and health promotion related to the Corona Pandemic
-  The training is supported by the Suntakhan ward and health post.
-  Training program fully sponsored to support community engagement: no participation fees!
-  Certification will be offered at the end of the training. Achieve a valuable, out-standing qualification that increases your chance to get a health-related job during the Covid-19 crisis (e.g. within contact tracing).
-  The training will be organized in small groups (max. 10 persons) in order to ensure social distancing and personal protection.
-  After completion of the program, participants can then train others in their community as a paid job opportunity

Content of the program

-  Basic medical education with special focus on SARS-CoV-2 and Covid-19 including anatomy, physiology, pathology, epidemiology, hygiene, mental health.
-  Public health related topics including health promotion and education, training and facilitation, nutrition, environment and sanitation, crisis management.
-  Covid-19 related topics frequently asked questions, use cases, and myth busters.
-  Practical exercises and field study.
-  Training content is based on official sources of WHO, UN, ECDC and other international institutions

Application Requirements

-  +2 graduation or SEE/ SLC or equivalent. If certificate not available yet, send-up examination is sufficient.
-  ability to attend classes in Suktakhan.
-  interest in in medical topics, basic knowledge in medical topics is helpful.
-  motivation to share the acquired knowledge and competencies with the community in trainings and consultancies
